

Thompson's New Truss.

Unexampled Success.

WHERE this Truss has been introduced, it is taking the place of all other Trusses ever invented. Persons who have tried the most approved kinds heretofore made, will lay them aside and purchase one of these invaluable Trusses.

The following recommendation has just been received from Dr. Hall, of Vergennes.

This Truss, he says, is a great improvement over any thing that has hitherto been invented in the form of a Truss. The superiority of the above article does not consist in the ease and safety by which they are worn only, but by proper adaptation will speedily effect a permanent cure of the Hernia. Numerous certificates to the above facts might be added, were it necessary, but a slight examination of these Trusses will convince any one that the great desideratum has at length been obtained, and this formidable disease is no longer a dread. I think therefore that all afflicted with Hernia or Rupture, and having a just estimate of the danger of delaying attention to it, will procure a Truss immediately and be cured.

A. HALL.

Vergennes, Oct. 1836.

I hereby certify that on commencing having this season, I was afflicted with a Hernia, which became so painful that I was obliged to quit work. I applied one of Thompson's Patent Trusses, with which I was enabled to labor daily, and found no more inconvenience in wearing it than in wearing my stockings. In three weeks I was perfectly cured, laid aside the truss, and have had no recurrence of hernia since.

GEORGE A. HALE.

Brattleboro, Aug. 1836.

Mr. Thompson, Sir—The Trusses begin to go well, having sold several. Having myself tried several trusses of various kinds, found no relief. But putting one of yours on the first of April last, in four weeks was entirely cured, and have not had occasion to wear any since; and I do not hesitate to say that in my opinion they will by the blessing of God, effect a permanent cure.

L. M. AMSDEN.

Greenfield, Sept. 1836.

For sale, at wholesale or retail, at the Store of D. B. THOMPSON, Brattleboro.

CHAS. SIGOURNEY & SON, HARTFORD, CT.

Winchester, Nov. 9, 1836.

MORUS MULTICAULIS SEED.

THE subscriber, as agent for Samuel Whitmarsh, offers for sale the seed of genuine MORUS MULTICAULIS raised in France the present year, and selected especially for Mr. Whitmarsh. It will be sold in ounce papers at five dollars per paper. All orders, post-paid, directed to the subscriber Northampton, Mass. will be duly attended to. Also expected soon from abroad a quantity of the Chinese Mulberry Seed of this year's growth, similar to that imported last Spring by Mr. Whitmarsh, for which orders may be given.

C. P. HUNTINGTON, Agent.

Northampton, Nov. 17.

Jewett's Improved Vegetable Pills, Or German Specific,

WILL prove a sure remedy for dyspepsia, jaundice, diseases of the liver, headache, heartburn, sour stomach, loss of appetite, dizziness, weakness of the limbs, costiveness and piles. Among the many testimonials recently received of the salutary effects of these Pills the following strong proof is submitted for examination:

Extract of a letter from Rev. Mason Knappen, dated Sudbury, Vt. Sept. 23, 1828.—"Dear Sir—It is with no ordinary interest that I undertake to recommend to the public the virtues of Jewett's Vegetable Pills or German Specific, for the cure of indigestion, &c. My own case has been one of the most unconquerable kind, having long set at defiance medical aid, dieting, exercises and the fashionable specifics,—the waters of Saratoga. Being totally prostrate in mind and body, I was induced, almost without hope, to make use of the above named Pills, and was surprised to find their powerful and favorable effects. My distressing symptoms daily decreased, and I am now almost entirely cured of a most distressing complaint which for seven years had resisted a great variety of the most popular remedies."

MASON KNAPPEN,
"Minister of the Gospel, Sudbury, Vt."

Extract of a letter from a gentleman in Boston received through the past office, dated Sept. 14, 1828.—"Sir, I am induced by feelings of the liveliest gratitude to make known to the public the following cure by means of Jewett's Improved Vegetable Pills or German Specific. My complaint was the Dyspepsia, attended with a pain in the side and stomach, loss of appetite, &c. I applied to several physicians, and used all the medicine, generally prescribed to persons in my situation, but they proved ineffectual. At last, by the advice of a friend who had been cured in a case similar to mine, I made trial of the above named Pills, and by implicitly following the directions, they gave me almost instant relief, and by using two boxes more, they effected a permanent cure. I am now enjoying excellent health, and would heartily recommend to those persons laboring under dyspepsia to make trial of the above medicine."

From Rev. J. D. Drummond.
With feelings of pious gratitude to heaven, (whence flows every good and precious gift,) I now come forward to unite mine to the numerous testimonies of those, who have experienced the happy effects of "Dr. Jewett's Improved Vegetable Pills." For more than two years I have suffered severely from a disease of the stomach, owing to a derangement of the digestive organs. And though I ran the recommended course of many remedies famed for their relieving virtues, yet all was vain and useless,—until at length through the advice of a friend I consented to make trial of the above named Pills, the use of which has completely re-established my long wished for health.

J. D. DRUMMOND, Catholic Priest,
Boston, Mass. July 25, 1833.

Brattleboro, June 16, 1836.

Vegetable Pulmonary Balsam.

THIS truly valuable remedy has now been offered to the public for eight years, and has proved itself the most valuable remedy discovered for Coughs, Colds, Asthma, or Phthisis, Consumption, Whooping Cough, and pulmonary affections of every kind. Its sale is steadily increasing, and the proprietors are constantly receiving the most favorable accounts of its effects. The following new certificates are offered for public examination:

From Dr. Wm. Perry.

I have witnessed the effects of the Vegetable Pulmonary Balsam, and have no hesitancy in expressing it as my belief that it is a safe, convenient, and very efficacious medicine.—Respectfully yours,

WM. PERRY, M. D.

Exeter, N. H. July 17, 1832.

From Dr. Truman Abell.

For the last five years of my practice I have had the satisfaction to witness the beneficial effects of the Vegetable Pulmonary Balsam in many cases of obstinate cough, and other affections of the lungs. I would therefore confidently recommend its use in all complaints of the chest as being equal, if not superior, to any other medicine within my knowledge.

TRUMAN ABELL, M. D.

Lempster, N. H. Dec. 3, 1833.

From Dr. Thomas Brown.

The Vegetable Pulmonary Balsam has been extensively used in the section of the country where I reside, for several years past, and has justly acquired a high reputation in Consumption complaints. So far as my knowledge extends, it has never disappointed the reasonable expectations of those who have used it.

THOMAS BROWN, M. D.

Concord, N. H. May 11, 1833.

From Dr. Samuel Morrill.

To the Proprietors of the Vegetable Pulmonary Balsam.

I am satisfied that the Vegetable Pulmonary Balsam is a valuable medicine. It has been used in this place with complete success in obstinate complaints of the lungs, attended with a severe cough, loss of voice, and the raising of much blood, which had previously resisted many approved prescriptions. After using the Balsam one week, the patient's voice returned, and he was enabled to speak audibly. This case occurred some time since, and the man is now engaged not only in active but in laborious business.

Respectfully yours, &c.

SAMUEL MORRILL.

Concord, N. H. Jan. 30, 1832.

From Mr. Samuel Everett.

In October, 1830, I was attacked with a cough accompanied with a severe pain in the side and difficulty of breathing. I resorted to several remedies, but without effect. In Jan. 1831, I was attended by a skilful physician, and subsequently received the advice of several others, but the disease steadily increased, the cough was incessant, attended with a bloody offensive expectoration; my flesh was wasted, my feet swollen, and my strength extremely reduced. In April, my case seemed utterly hopeless. I was told by my physicians that medicine could be of no further service to me, and it was not expected by any of my friends that I could survive a month. In this situation my daughter procured a bottle of the Vegetable Pulmonary Balsam, (which she had heard highly recommended for similar complaints) and prevailed on me to make trial of it.—Its use was attended with the most unexpected and happy results. It gave me immediate relief, and one bottle effected a cure. I have since been free from pain in the side, and cough, except the case of common colds.

SAMUEL EVERETT.

Boston, March 1, 1832.

COUNTERFEITS!! BEWARE OF IMPOSITION.

Each genuine bottle is inclosed in a blue wrapper, on which is a yellow label signed Sampson Reid.

NONE OTHER CAN BE GENUINE.

The great celebrity of the Genuine Vegetable Pulmonary Balsam has been the cause of attempts to introduce spurious articles, which, by partially assuming the name of the genuine, are calculated to mislead and deceive the public. Among these mixtures are the "American Pulmonary Balsam," "Vegetable Pulmonary Syrup," "Pulmonary Balsam," and others. Purchasers should inquire for the true article by its whole name, THE VEGETABLE PULMONARY BALSAM, and see that it has the marks and the signature of the GENUINE.

Each bottle and seal is stamped VEGETABLE PULMONARY BALSAM. For sale by Williston & Co., Brattleboro. James Keyes, Putney. Robbins & Wells, Bellows Falls.

Invalid, Read!!

One disease last than only, an IMPURITY OF THE BLOOD, which by impeding the circulation, brings on Inflammation, or derangement in the organ or part where such impurity of the blood settles.

BRANDRETH'S Vegetable Universal Pills,

HAVE a specific action on this impurity, which they soon remove, instantly relieving, and soon restoring to health; six thousand persons can be referred to in New York, that these Pills have cured of various diseases, among which are Dyspepsia or Indigestion, Nervous complaints, Ulcers (some 30 years standing,) Consumption, Rheumatism, Stone and Gravel, Dropsy, Asthma, Piles, Fistula, Loss of Appetite, Langour, Worms of all kinds, Deep seated pains, Tremor, Pulpitation of the Heart, Palpitations, Debility, want of Energy, Headache, Costiveness, Frigidity of the Digestion, Fever and Ague, and Deafness. In all cases they will be found a safe and simple remedy, yet all powerful for the removal of diseases, whether chronic or recent, infectious or otherwise; and what makes them particularly adapted to this country, is, that there is not the slightest liability to cold when taking them—indeed the system is absolutely less susceptible of cold when under their influence than at any other time;—therefore, in this climate, they are invaluable. Neither do they require a change of diet, or care of any kind. In England, these Pills have been the only medicine of many families for periods of 40 to 60 years, and have always proved effectual in restoring health whenever an aberration from it has occurred.

In many cases where the dreadful ravages of ulceration had laid bare ligament and bone, and where to all appearance, no human means could save life, have patients, by using these Pills, been restored to health, the devouring disease has been completely eradicated. In consequence of the pleasantness of their operation, and the dose not generally being required to be more than four or five pills, (merely keeping in view the drain upon the humors,) they are fast superseding every other preparation of professed similar import.

The following cases are given—the references are all in the city of New York.

Liver Complaint Effectually Cured. Sir, out of respect to you for your excellent Pills, and especially the well-being of my fellow creatures, I send you this short account of my case. I have had, for two years past, a severe pain in my right side, which was pronounced a Liver complaint by two respectable physicians of this city, whose prescriptions I used to no avail; my side becoming worse, I was advised to make trial of your Vegetable Universal Pills, which I did, and soon found relief,—but after I had been using them six weeks, I felt as if one of my old attacks was coming on. I then consulted you, as you may remember, and you ordered me to bed, and take four pills every two hours, until the pain from my side was removed, and I believe it was very proper advice, for I could scarcely breathe, or bear to move my body, such was my extreme pain.—After the first dose of your pills, my side pained me more severely; I then took seven pills, and continued taking them in these doses, until I had taken thirty-four pills, when I felt a sudden sharp pain, similar to a bullet passing through my side, and shortly afterwards I parted with what appeared to be a fleshy or cartilaginous substance; I was then easy—for a week afterwards I had a little soreness in my side which is now quite well, and I am perfectly cured, and in the enjoyment of the best health, and feel altogether a new man, as I can now breathe and walk as well as ever. You are at liberty to refer to me. I am, Sir, yours very truly, and greatly obliged.

BENJ. EVANS, 172 Broom-st., N. Y.

Dysentery and Deafness Cured.

Sir, allow me to express my grateful feelings for the benefit I have experienced in your Vegetable Universal Pills, in the cure of Deafness, which I have been subject to nearly thirty years. I have frequently been under eminent artists in London, who have invariably syringed me, and who have all said that no other mode of treatment would be of service. The latter part of May I again lost my hearing, with continual unpleasant noises in my head. It was with difficulty I could hear any one speak; knowing that you were an English surgeon, I applied to be syringed, thinking that was the only remedy; you refused to operate, but told me a box or two of your pills would have the desired effect, and I was induced to try them, especially when I found that many persons had been cured of the same complaint. I have taken two boxes which cost me 50 cents, and I am happy to say am completely cured. The dose I took was two or three at night, and twice during the time, I took five. They never inconvenienced me in the least, and were remarkably easy in their operation. I certainly can recommend them to any one laboring under the same unpleasant disease.

Permit me likewise to say, my eldest daughter had a dreadful Diarrhoea or Dysentery on her, which in two or three days reduced her frame, and I thought would have sent her to the grave. I immediately applied to you, to know if the Vegetable Universal Pills would have the same beneficial effect on her as they had on myself; you told me to persevere, and they would make a cure; I had confidence in them, and am happy to say by her taking from four to eight pills every night, the dreadful disease left her in about a week. She is now well, and getting up her strength very fast.—She took no other medicine whatever; she continues occasionally one or two pills at night.—My family had used the Hygeen Medicine for upwards of twelve months, and found they could not leave them off, as Costiveness and Piles were sure to follow. Thank God, your pills leave no enemies behind them. I have no hesitation in saying, your Vegetable Universal Pills are the safest and the best medicine myself or family ever took. Make what use you think proper of this communication, and you are at liberty to refer any one to me, and I think I am only doing my duty in thanking you, through divine mercy, for the benefit received. I am, Sir, yours very truly.

JAS. LANCE, 250 Eighteenth-st. near Broadway.

A Running Ulcer of three years, entirely removed with eight boxes of Brandreth's Pills. Edward Browne, son of Mr. James Kingston, for three years had a Running Ulcer in his hip, which obliged him to be carried about; the doctors were in daily attendance, and the best advice was had from New York. All did not relieve the poor child, who was not expected to recover. Brandreth's Pills were commenced with four months ago, and a decided change was effected before the third box was finished, and now having taken eight boxes, he is quite well.

Deafness and Pains in the Head Cured.—Mr. Pool, 73 Hudson-street, N. Y., has kindly allowed Dr. B. to mention, that for four years he had been afflicted with deafness in the left ear, all around which was quite hard, and scarcely a day passed without violent pains and a continual ringing or singing noise in his head; that for these symptoms he made trial of many medicines, but gained no relief until

he took Brandreth's Pills, which in less than a month, entirely succeeded in effecting a cure. The part of the ear that was affected became soft as the other.
