

MRS. PHILLIPS STILL AT LARGE

"Hammer" Murderess Is Believed To Have Gone to Mexico

HUSBAND HELD FOR INQUIRY

Peggy Caffee, Former Chorus Girl Chum, Is Missing

Los Angeles, Cal., Dec. 6.—The search for Mrs. Clara Phillips, convicted of beating Mrs. Alberta Tremaine Meadows to death with a hammer and who escaped early yesterday from the Los Angeles county jail, was in active progress to-day throughout southern California and Lower California, the Mexican state.

Despite various other "tips" and "clews," sheriffs, deputies generally held to their original belief that the "hammer murderess" had fled across the border into Mexico and plans were made to extend the search to-day for her as far south as Ensenada, on the west coast of Lower California peninsula, about 90 miles south of San Diego, Calif. They were not overlooking other directions, however, and had asked San Francisco authorities to join in the hunt.

Armour Lee Phillips, the convicted woman's husband, upon whose story of his movements the 24 hours preceding his wife's escape "some doubt" had been cast according to sheriff's deputies still was in technical custody early to-day.

The exact whereabouts of Mrs. Peggy Caffee, former chum of Mrs. Phillips when they were members of the chorus of the same musical comedy company and later witness for the state at Mrs. Phillips' trial, was unknown to the authorities early to-day. They said they were interested in learning where she was merely because they wanted to be assured of her safety.

Washington, D. C., Dec. 6 (By the Associated Press).—Rules similar to the Washington conference on limitation of armaments were approved at the first business sessions yesterday of the general committee of the central American conference and will be drafted and presented for adoption to-day. Chief interest at to-day's session is expected to center in the question of inclusion in the conference agenda of the proposal for a union of central American countries.

CARPENTIER DENIES FRAME-UP. And Points to His Broken Bones as Proof.

Paris, Dec. 6 (By the Associated Press).—Georges Carpentier in newspaper interviews to-day added his protestations to those of Francois Desmamps, his manager, to the assertions of Battling Siki that the boxers' recent meeting was to have been framed.

Carpentier's chief argument in his efforts to discredit the statements of the Senegalese is to show his badly damaged knuckles and to exhibit X-ray photographs of his hands, taken after the fight, which show that all the metacarpal bones were broken.

"Does that look like a fake fight?" queried Carpentier. He also asked whether it was likely that he would arrange a frame-up for a bout he was so sure of winning that he actually lost it by over-confidence. The former champion asserted that since his defeat his one ambition has been to meet Siki again and re-establish his reputation.

COLD GRIPS NORTHWEST

And Low Temperature Extends As Far South As Texas

BLIZZARD TIES UP LAKE TRAFFIC

East Has Not Suffered Yet From Severe Cold

Chicago, Dec. 6.—Still holding the northwest in a chilling grip of sub-zero temperatures, winter continued its belated advance to-day, causing marked drops in temperatures as far south as Texas and calling forth predictions of colder weather in the lake region, the great central valleys and the east Gulf states.

In the upper lake region, the zero and sub-zero weather was accompanied by a sixty-mile wind, driving before it a snowstorm that virtually tied up shipping.

Reports indicated that the cold wave still centered in North Dakota and Montana. Hays and Williston, N. D., recorded the coldest temperatures in the country last night, the mercury going below zero.

The east did not suffer from the unusual cold prevalent in the northwest, temperatures there ranging from 26 to 70 degrees above zero.

SPANISH PREMIER OUT.

Guerra Resigned for Second Time in Four Days.

Madrid, Dec. 6 (By the Associated Press).—Premier Sanchez Guerra has presented the resignation of his ministry for the second time in four days, the crisis growing out of the continued endeavors to place responsibility for the Spanish reverses in Morocco in July 1921.

In the Senate General Berenguer, former Spanish high commissioner in Morocco, made a sensational speech in which he declared that when he took over the command in Morocco on July 27, 1921, he made himself responsible for everything that occurred in the Melilla zone.

He pleaded with the Senate to accede to the demand for his impeachment, saying that if anyone was to be held responsible and liable to punishment, he desired to be that one. He concluded that he was ready to sacrifice himself alone for the nation.

A great crowd filled the Senate when the demand for General Berenguer's impeachment was presented, after having been approved in committee.

SAYS TANLAC PUT HIM BACK ON HIS JOB

"As sure as I am telling it, I could not have gone back to work at the slate mill if it had not been for Tanlac," said David F. Molenar, of Hydeville, Vt., in an interview recently.

"My stomach had been in a awful fix for years. In fact, I was a confirmed dyspeptic. I could not eat anything except the simplest and plainest of food and even then I suffered. Many a morning I became so nauseated after breakfast that I could not retain a bit of what I had eaten. My stomach pained me, my heart would palpitate, head ached about all the time and I'd get so dizzy I could not stand up."

"I also had rheumatism in my arms and shoulders that pained me continually, and my back hurt terribly, but this, like my stomach trouble, soon went away after I got Tanlac. I have gained ten pounds and am strong enough to work at anything and not play out. Tanlac certainly does make a fellow eat good and sleep good and that makes him feel good. I think so much of Tanlac that I am all the time telling somebody about it."

Tanlac is sold by all good druggists. —Adv.

USE SALTS IF BACK IS ACHY

Flush your kidneys occasionally if you eat too much meat.

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood; then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in urine so that it no longer causes irritation, thus opening up the bladder passages.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.—adv.

SISTERS OF CHARITY HAVE PROVEN THE VALUE OF FATHER JOHN'S MEDICINE

Sisters in Charge of Children's Home "Have Used It With Great Success For Coughs and Colds"

At the Children's Home in Newburyport, Mass., there are an average of sixty children under the loving care of the Sisters of Charity.

In a recent signed statement the Sister in charge said: "We cheerfully endorse Father John's Medicine because in our Home it has become indispensable. We use it, not only for coughs and colds but also as a builder. We tell our friends that we would not be without it. We have used it with great success and find it to have no equal as a builder."

(Signed) The Home for Destitute Children, Sisters of Charity, Newburyport, Mass.

In a great many institutions of a similar character throughout the country, Father John's Medicine is what the nurses in charge depend upon to keep the children well and strong. They know that it is entirely safe because it is free from alcohol and dangerous drugs.

Many similar letters of endorsement have been received from homes, hospitals and institutions, and the names and copies of the letters will be sent on request.

Father John's Medicine is a doctor's prescription, and is pure and wholesome. It has had more than sixty-seven years' success for colds, throat troubles and as a tonic and body builder.—adv.

Advertising is the Sunlight of Business

To all that is healthy and vital in business, it means increased strength and growth; but advertising is a fierce heat which withers and consumes that which is unsound.

A business which is not a good business should not be advertised. A business which would not benefit from widespread appreciation of its deals had better acquire a new set of ideals.
