been benefitted by its use; and in our humble opinion it is one of the best preparations for colds, coughs, and for the lungs now in use.

BEWARE OF COUNTERFEITS AND IMITATIONS.

The unparallelled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry, in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures of similar name and appearance, for the genuine Balsam. "Dr Wistar's Balsam of Wild Cherry is the only genuine. The rest merely imitate the name of the original while they possess none of its virtues.

Remember, the original and only genuine Wistar's Balsam of Wild Cherry always bears the written signature of I. BUTTS on the wrapper.

BE CAREFUL WHAT YOU BUY.

All imitations and counterfeits being put up by persons ignorant of the diseases of the human system, and the effect of medicines, are entirely unsafe and dangerous.

LOOK WELL TO THE MARKS.

The genuine Balsam is put up in bottles, with the words "Dr. Wistar's Balsam of Wild Cherry, Philad." blown in the glass; each bottle bearing a label on the front with the signature of I. WISTAR, M. D.

This will be enveloped hereafter in a wrapper, copy right secured 1847, on which will always appear the written signature of "I. Butts."

THE GENUINE AND ORIGINAL

Dr. Wistar's Balsam of Wild Cherry,

On account of its great popularity, has been EXTENSIVELY COUNTERFEITED IN PHILADA, And some thousand bottles of the spurious liquor into the market and extensively circulated.

EXAMINE CLOSELY BEFORE PURCHASING!

That distinguished surgeon and physician, James Ayer, M. D., Hanover street, Boston, thus writes as to the signal efficacy of

DR. THOMAS CORBETT'S

Concentrated Shaker Syrup of Sarsaparilla.

Boston, Feb. 14, 1849.

Messrs. E. Brinley & Co.:

Gentlemen:—I have employed the Compound Syrup of Sarsaparilla, prepared by Dr. Corbett, extensively in my practice, since I knew the Formula by which it is made. Its ingredients are happily combined, and I think it a preparation exceedingly well adapted to all the cases where Sarsaparilla is applied. In my hands this Syrup has so far (for four months past) proved more than satisfactory; and its effects have been astonishing. And I must say decidedly, that any preparation of the article I have ever met with; and I know I think it ought to have a preference over all others. So far as my experience in its use extends, I gladly recommend it as a very valuable preparation. One thing is in favor in this—it is no secret compound—the Formula is from which it is procured being open to the inspection of the Medical profession.

Respectfully yours,

JAMES AYER, M. D.
