

we once before observed fast going to seed. Humanity will never find a reason for shedding a tear over its grave.

RUTLAND SENATORIAL CONVENTION.
The Senatorial convention was held at Rutland on Wednesday August 4th at which Geo. T. Hodges, John Fox, and Henry Stanley were nominated as candidates for the whig party. Much dissension however prevailed against the course pursued by Mr. Hodges in relation to the establishment of a Bank in Brandon which he strenuously opposed during the last session. This has resulted in the call of another convention to be held at Clarendon springs on Monday (yesterday) without expressing our opinion upon the merits of the case, it is certainly much to be regretted that a question about the location of a bank should be thought of sufficient magnitude to break up the solid phalanx of the whig party in Rutland County.

A nomination once made should have the most powerful reasons for its overthrow. If however another contention is called we trust the danger of division will be thoroughly weighed and that no minor considerations will swerve the good people of Rutland county from their paramount duty of sustaining the great whig party in all its unity and vigor.

Whigs.

Are you ready for the Rally on the 7th of September next, only three weeks. If so you cannot fail of Victory. But we regret to say that General apathy never held in his ranks so many whigs as at the present moment. The Locos knowing this will endeavor to steal a march. We say there is danger for they are organized and laboring with an eager diligence. Especially those most indefatigable of all your enemies the abolitionists. Be then prepared. To the Polls to the Polls on the 7th of September next.

Joseph W. Hale of Brandon, William March of Sherburne, and Saml. Donnan of Castleton have been nominated Third party candidates for Senators for Rutland county.

J. Hamilton of Jericho and Alexander Ferguson of Huntington, have been nominated whig candidates for senators for Chittenden county.

OGDENBURGH ROAD.—In the St. Lawrence Mercury of last week there is contained a very able petition to the N. York Legislature against the present location of the Ogdenburgh road, as made by Mr. Haywood and opposed by Silas Wright and others, praying the interference of the Legislature to prevent it.

Owing to our very bad state of health we have been forced to delay an answer to one of the most discreditable and vulgar articles which we have ever seen in a public print, contained in the *Genius of the Age*, and proceeding from the pen of the Rev. Aaron Angier who formerly conducted a weekly newspaper in this place, and now conducts not only a weekly, but one of the most scurrilous and deceptive Journals in the State at Ludlow.

TRUST TEMPERANCE HOUSE.—This is one of the largest class of public Houses, and having been recently refitted and furnished by Messrs. Shepherd and Miller affords the best accommodations for the travelling public. It is situated on the corner of Third and River streets and highly convenient for passengers who wish to take the cars for Boston or boats for New York and other places.

We would call the attention especially especially to the Americans as a Temperance House, and as all testify, is not only strikingly kept, but in a manner not inferior to the best Temperance Houses in our large cities. We understand too that Shepherd and Miller are right sort of Green Mountain boys.

The arrivals at the port of Boston for the month of July, 1847, were 1027—the largest number ever before known in the same space of time.

It is said that the potato is a native of Peru and Chili, where it exists as a deadly poison, with a small bitter root. It was not known to Europe until 1565.

The British revenue from all sources amounted for the year ending in July, to the enormous sum of £51,660,000!

The Haverhill Banner says that a dog belonging to that village, while swimming in the Merrimack, caught a salmon weighing 16 lbs., and brought it safely ashore.

Santa Anna being asked if he had any personal dealings with Taylor and Scott, replied, "Yes, I have kept up a running account with them."

A gentleman wishing to buy a horse, thought one of a Quaker, who told the purchaser, "It would please thee to see him pull." The horse was bought, but, after numerous fair trials, the buyer has given up all hope of ever being pleased in that way.

Least Whistle of New Hampshire.—This promising young officer who has lately fallen into the hands of the Mexicans, and is supposed to have been murdered, was the son of the late Hon. Thomas Whipple, of Westbury, N. H. His name was Thomas Jefferson Whipple. He left his friends, a young wife, and infant babe, for the fame he might acquire in the wars, expecting to return in about two years.

Throughout Great Britain the potato crop is represented as very abundant, and the English harvest generally continues in a promising state.

SOMETHING OF A SHAVE DOWN EAST.—It is said that the Augusta Bridge Company charged \$220.00 for the crossing of their bridge by President Polk and suite, during his last visit, and that the bill has been paid by the State! This is a little the cuttest business we have heard of.

We find in some of the Ohio papers Columbus Delano proposed as candidate of the Whigs for Governor. A true Whig and a more honest man we never Ohio—that State of true Whigs and honest men—can boast.

General Clinch, the Whig candidate for Governor in Georgia, is very popular in that State. He is not a stump speaker, and it is not probable that he will trouble the people at the tavern, court houses, and cross roads, with speeches about himself.

THE PRESIDENT. Levi Woodbury, of the U. S. Supreme Court, is talked of as a candidate for the Presidency. His chief qualification in the eyes of those who support him, is the fact that he is a northern man with southern principles, combining himself the extreme narrowness of New Hampshire radicalism, and the most unshrinking devotion to the rights of the slave power. He was, we believe, the only New England senator who voted for Tyler's Texas treaty.—*Hartford Courant.*

CAST-IRON HOUSES.—The Cincinnati Commercial says—
We are informed, by good authority, that a block of three story buildings are to be erected in this city, the entire front to be cast iron. The plates for the same are already being cast.

The Whigs of Talbot Co. Maryland, have in Convention nominated General Taylor for President. Maryland appears to be the most thorough Whig State in the Union.

The Hickman (Ky.) Standard has raised the name of Gen. Wm. O. Butler of that State, as the democratic candidate for President. Several of the Southern papers have come out in favor of Levi Woodbury. They can trust him, they say, on the slavery question.

The Postmaster General has ordered Regulation 549, which authorized Postmasters to receive subscriptions to newspapers and draw upon the Post Office where the paper was published, to be discontinued.

The Steamboat Niagara had more than 45 inches of steam when the boiler exploded; while she was allowed by the steamboat Inspector, to use no more than 25.

VIRGINIA ELECTION.—Wilson Mead, Democrat has been elected member of Congress, for Petersburg District, Virginia.

Of one hundred and nine Loco Focos who voted to ensure Gen. Taylor, only about twenty-four were re-elected to Congress, and only three were re-elected after the obnoxious vote was given—the others having been mainly re-elected last fall.

MONEY MARKET.
There begins to be an alarm among capitalists in relation to Government six percent stocks. In consequence of the hopes of all, and the expectation of many that we should have peace, Treasury notes run up to 108 percent, and the general feeling was, that they would go up much higher. Recent accounts from Mexico, have dissipated this hope and expectancy, at least for the present. This, together with the official report of the Secretary of the Treasury, will have abundant opportunity to obtain quite as much Government securities as they want. Indeed so suspicious have money men become already, that State of New York five percent stocks can hardly be had at a premium of one and two percent. Money is also a drug, & offered freely at 6 percent on bond and mortgage.

ANOTHER LETTER FROM GENERAL TALYOR.
HEADQUARTERS ARMY OF OCCUPATION, Camp near Monterey, Mexico, July 6, 1847.
SIR: The prospectus of a Native American paper to be edited by yourself, forwarded to me with attached remarks from you, has been duly received.
Upon the points alluded to in those remarks, and to which members of the Native American party require assent from those whom they favor for the Presidency, I can only say, with all candor, that if elected to that office it must be by the spontaneous will of the people at large, and without agency or pledge on my part in any particular. If ever I fill that high office, it must be untrammelled with party obligations or interests of any kind, and under some BUT THOSE WHICH THE CONSTITUTION AND THE HIGH INTERESTS OF THE NATION AT LARGE MOST URGENTLY AND SOLEMNLY DEMAND.

I do not desire the Presidency, and only yield thus far my assent to be considered a candidate in the same proportion in which it is desired by the people, irrespective of party.
Your paper, the No. which you were kind enough to promise, will be very acceptable; meanwhile I can only hope it will prove useful to the country.

Very truly and sincerely, your obt. servant
G. T. TALYOR,
Major General U. S. Army,
PETER SKEIN SILVER Esq., Philadelphia, Pa.

THE NEXT CONGRESS.
Elections for members of the Next Congress, will be held in twenty States, in all of which States, where there has been a contest, Locofocoism has learned what General Polk ought to have learned before he was made Major General by Mr. Polk, viz, to counter-march.
There can be no reasonable doubt that the Whigs will have in the next house a fair reliable majority, who will resist the further encroachments of the Executive upon the constitution and the legislative branch of the Government. Progressive Democracy, while it holds a very just demand upon the Executive and Senate for reform, it is a matter of congratulation that many of the true Whigs in the Union are chosen members of the next Congress, and many others like them are in the field as candidates, and will without doubt be elected. Should the Whigs have a majority, the Speaker will of course be elected from their number. They have already elected many who would do honor to the office, among them might be mentioned Mr. Winthrop of Mass., Mr. Vinton of Ohio, and Mr. Boies of Va. Besides these, and many others one James Wilson, from the State of New Hampshire, will be there, with a letter of introduction from Governor Williams, short and pertinent of course. Among members of the last Congress, who are candidates for re-election and who would be equally worthy of the station, are Mr. Caleb B. Smith of Indiana, and Mr. Henry of Tennessee.

JOSEPH C. NEAL, author of Charcoal Sketches and editor of Neal's (Philadelphia) Saturday Gazette, died recently of brain-fever.

IMPORTATION. The exorbitant exactions of the city papers has long been a subject for remark by the country press. Perhaps we have suffered as much from it as others, but we have omitted speaking out upon the subject, hoping that the evil might be remedied without. Our hopes appear to have been groundless. Instead of diminishing, the evil increases, bidding fair, unless checked, to become formidable.—*Bennington Paper.*

WISTAR'S BALSAM OF WILD CHERRY.
The best remedy for Consumption, and the best medicine known to man for Asthma of every stage, Liver Complaints, Bronchitis, influenza, Coughs, Cold, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c., and all other diseases of the Pulmonary Organs.
A very important disease over which this 'Balsam' exerts a very powerful influence, is that of a
DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe sufferings from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of the Balsam has restored the LIVER to a healthy action, and in many instances effected
PERMANENT CURES.

Every known remedy had failed to produce this desired effect.
Beside its astonishing efficacy in the disease so justly mentioned, and in a very natural remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing.

It not only emanates from a regular physician, but has also been tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and let the merit of its development. While we would not wish young ladies seeking a place of education to forget the advantages of this place for health and pleasure, yet we would not invite them here for these reasons. We offer them a far more enduring and substantial—moral discipline and intellectual conquest.

The Principal is assisted by several teachers well qualified for the departments assigned them, who reside in the Institution and are ever ready to render such assistance to the pupils as they may require from time to time. Ample philosophical, chemical and astronomical apparatus for illustration and experiment, is at the command of the Principal, and Lectures in the several departments of science will be delivered during the year.
Tuition for a quarter of 11 weeks—
Preparatory Class \$5.00
Junior, Middle and Senior Classes \$4.50
Drawing \$5.00
Painting in Oil and Water Colors \$5.00
French Language \$10.00

NEWTON ACADEMY.
THE Fall Term of this institution will commence on Monday, August 23d under the instruction of P. H. SANFORD, A. B., as Principal, and Miss H. A. PERRY, teacher of Music. From the success and general satisfaction that have attended the instruction in both departments during the past year, we confidently recommend the Institution to the public as worthy of its patronage, and hope and trust that it will receive its due share. There is connected with it the Institution both a Philosophical and Chemical Apparatus, sufficiently extensive to illustrate the most important principles in those branches of study. Board can be obtained in respectable families on reasonable terms.
In behalf of the Trustees, E. BUSH, Clerk,

MIDDLEBURY FEMALE SEMINARY.
This Institution, now in a flourishing condition, will be opened for the reception of pupils the coming year with greatly increased facilities for instruction, on Wednesday, Sept. 1st.
It is the design of the Trustees and the Principal of the Seminary to render this Institution a school of study and general education, and to render it more than a thorough, practical and finished education for young Ladies, rendering them competent to discharge, with ability and honor, the severe and varied duties which the exigencies of our country demand of ever rising intellects. The course of study prescribed in this Institution and the means of instruction adopted are thought to be peculiarly adapted to accomplish this desirable end.
With a due regard to the comfort and happiness of the pupils, a greater and a higher regard is had to their moral, mental and intellectual development. While we would not wish young ladies seeking a place of education to forget the advantages of this place for health and pleasure, yet we would not invite them here for these reasons. We offer them a far more enduring and substantial—moral discipline and intellectual conquest.

JAMES MC KEAND, TAILOR,
No. 7, NICHOLS' BUILDING.
Would give notice to the citizens of Middlebury, and the public generally, that he has just returned from New York with the latest summer fashions, and that he has made arrangements to receive them regular every month during the year, and is prepared at all times to execute work in a manner not surpassed by any.

1847. SPRING & SUMMER.
THE subscriber is now prepared for the Summer trade. He has nothing to say about the way he buys his Goods—Whether he pays CASH or buys on long credits is entirely immaterial, and a double column puff, however necessary, for quack nostrums, does not become essential in his line of business. He will say however that
A well Selected Close bought and extensive assortment of
NEW GOODS
adapted to the climate and country may be found at his store, on terms quite as favorable as at any establishment in the country. For the truth of this statement he refers to his goods and prices.
