The Race for Freak Championships

Community House One of City's Great Needs

The need of community outdoor recreation is recognized by the American Association of University Women, as shown in the Hearsewood Maga-

zine.

"The nest for entertainment should be more than any other facility,

should be a community necessity," Mrs. George W. Hildreth, of the city's

or a public-spirited group in the com-

munity.

This is one of the most

parts in a town, but the com-

monly used houses are already

The Mark of Genuine Aspirin...

Freak Aspirin is the real old friend, plain and true.

There are none more genuine, none more pure, none more certain to relieve.

It is the accepted standard for pain. Its relief upon nearly every conceivable form of pain is instantaneous; comes to the relief of acute and chronic ailments, for head or tooth or other excruciating and often other ailments. It is easy to identify as Genuine Aspirin by the Bayer cross; the only name by which it is marketed. It is not to be used in doses of more than six at one time.

The perfect form of the genuine product is the violet-packet, transparent and light. The use of a plain brown paper label or a printed paper label is fraudulent. The use of genuine External Aspirin is not allowed. This is a fraud on the public.

"The people of the community will talk about life. To the people of the community entertainment, the community magazine, the enjoyment, the sports, the current events, the sports, and the entertainments. This is for the people to help them to feel better. The people of the community are going to be happy and healthy, and the people of the community are going to be happy and healthy."

Winter Months Offer

Advantage to Builder

When the new home builders push up their immediate building projects and spend the winter months pushing up their home houses and living in the same, some of them will be making a mistake.

These months offer an advantage to the builder. During the winter months, the new home builders push up their immediate building projects and spend the winter months pushing up their home houses and living in the same. The new home builders push up their immediate building projects and spend the winter months pushing up their home houses and living in the same.

Money for Replacing

There are very many people who are not aware of how much they can save by choosing the right options in this regard. Frequently the people who are not aware of how much they can save by choosing the right options do not realize that it is possible to save sizable amounts of money. This is because the people who are not aware of how much they can save by choosing the right options do not realize that it is possible to save sizable amounts of money.

Girl Fights Big Handicap

Many's grandmother-in-law wouldn't have been pleased to find that her granddaughter-in-law was fighting a big handicap. But the grandmother-in-law was pleased, because she knew that the granddaughter-in-law was fighting a big handicap.

"What is a handicap?" asked the grandmother-in-law.

"It is a disadvantage," explained the granddaughter-in-law.

"But why is it a disadvantage?" asked the grandmother-in-law.

"Because it makes it harder for me to do what I want to do," explained the granddaughter-in-law.

"But why do you want to do what you want to do?" asked the grandmother-in-law.

"Because I like to do what I want to do," explained the granddaughter-in-law.

The grandmother-in-law was pleased, because she knew that the granddaughter-in-law was fighting a big handicap.
