ONLY TEN MORE DAYS to do a thousand and one things to prepare for Christmas. We are going to lessen the drudgery of Christmas shopping by selecting articles from our stock that would make suitable gifts and from day to day make practical suggestions to assist in making buying easy. As our prices are modest, the saving on all holiday purchases will be material. This week we start out with Picture prices cut very deep; our entire line of Pictures will be closed out at one-third off, and one of the best specials of the season is a large comfortable Turkish Rocker to sell for two-thirds of its value. Christmasy buying should start NOW as the early comers will have the choice of bulging stocks and save the annoyance of the last hustle and bustle of the crowds. All goods selected now will be put aside and held if a small deposit accompanies the order.

Library Tables

We have a large and very selected stock of these which we had bought for earlier selling, but owing to the manufacturers' rush they were slightly delayed, and arrived just in time for Christmas selling, and in order not to carry any of them over, we have priced them exceptionally low.

Fancy Rockers

Each home can find a place for an additional rocker and while filling your needs we suggest investigating our line of fancy rockers, in mahogany finish, dull or highly polished, quaint Dutch designs, mission and an assortment of golden oak rockers. The assortment is large and priced most modestly.
