JEALOUS SOLONS PUT GOOD BILLS ON SHELF

Staff Special.

OLYMPIA, Feb. 25.—The omnibus appropriation bill will become law, either as it was originally drafter, or as it will be amended upon the governor's demands.

That much of the legislative program is certain. For all the remaining 1,000 or so measures, various members have various hopes, and expectations, and conjectures, and speculation. Nothing is certain.

Somewhere in a senate committee rests the mothers' pension bill.

Somewhere in a house committee slumbers the bill to give the people the right to initiate constitutional amendments.

The direct election of senators on the Oregon plan is also in some committee's pigeonhole.

Congressional and state reapportionment bills are still smouldering, and are likely to thunder forth any moment, but no one seriously supposed there will be state reapportionment, and there is even some doubt on congressional division.

Six weeks of the present session are gone. There remain 17 days before the present session ends. With three Sundays off, this makes exactly two weeks more for legislative work.

In all, 29 bills have succeeded in getting by both houses. These have been chiefly appropriation bills. Two of these, the Cheney normal and the state road fund levy, have been vetoed by the governor. Both houses have been reluctant to take up the consideration of each other's bills, and the result has been that while each house has passed upon 50 to 100 of its own measures, the net result is far below the mark set two years ago.

Two combinations have stuck fast throughout the session on every measure in which they were concerned. These are the republican-democratic alliance, and the "cow county" combine.

Taylor's machine has never once been sidetracked, in spite of his numerous flagrantly arbitrary rulings. Likewise, the "cow county" combine has been able at all times to dominate reapportionment.

Within a few days, sifting committees will be appointed to pick the chosen few bills which should be considered, either by committees or by the house. Of course, the house will not consider any bill that has not first received the approval of the rules committee, which is the real sifting committee. And the rules committee will not submit any bill unless Speaker Taylor in the house either approves or believes it is expedient to have a vote taken on them.

And then the legislature will adjourn.

FACES 14 YEAR PENAL TERM

EPSOM, Eng., Feb. 25.—Promising not to incite further violence by her suffragette followers, and not to appear in public until her hearing, Mrs. Emmeline Pankhurst was released today under $3,500 bonds and ordered to appear for trial at noon tomorrow on the charge of having conspired to blow up the house of Chancellor Lloyd-George.

Fourteen years at penal servitude is the maximum penalty for the crime of which Mrs. Pankhurst is accused.

TONIGHT, IN the Y. M. C. A. auditorium, Prof. H. L. Blanchard, of the Puyallup experiment station, will conclude his series of poultry talks. He will speak on "Poultry Diseases and Vices." This meeting is free.

TO DEDICATE NEW DRYDOCK

America's biggest drydock at the Bremerton navy yard, costing $2,000,000, will be dedicated Saturday in full military and civic glory.

The famous battleship Oregon, which made the memorable trip from San Francisco around the Horn to Santiago and participated in the famous battle which drew the Spanish-American war to a close, will be the first ship docked.

Gov. Lister and his staff, in full military dress, members of the legislature, the supreme court judges, and other state officials, will arrive in a special steamer. The governor's salute of 17 guns will be fired.

Bremerton is preparing for a gala day. Children, in pretty costume, will sing patriotic airs. The stores will be decorated. All the ships in the harbor will fly high their colors.

MEAT PRICES CUT AGAIN FOR WEDNESDAY

The Middlemen Eliminated at

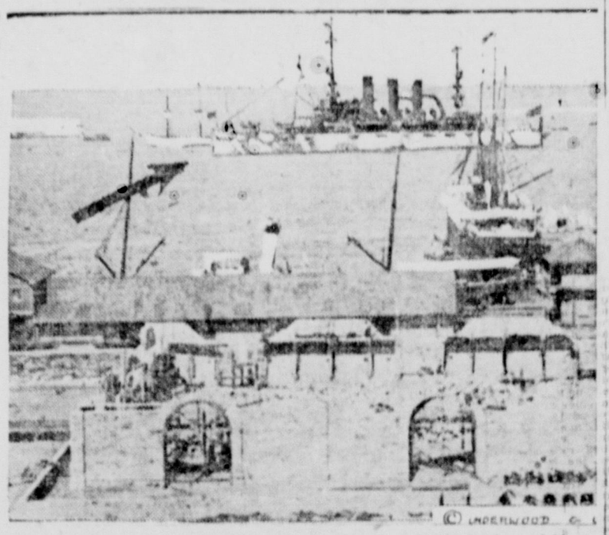
UNCLE SAM'S NAVY IN MEXICO



First picture showing American battleship Georgia in harbor of Vera Cruz, Mexico. The Georgia has nearly 1,000 Jack Tars who will be used to prot ect Americans.

OPPOSE BREAKING UP OF HARRIMAN MERGER

SAN FRANCISCO, Feb. 25.—Basing its stand on its objection to the breaking up of the local system of the Southern Pacific within the state of California, the state railroad commission today handed down a decision which practically defeats the plans for unmerging the Southern Pacific and Union Pacific as arranged by railroad officials and Attorney General Wickersham. The principal petitions of the S. P. and C. P. for joint use of tracks and terminal facilities have in effect been denied.

The commission declared the proposed plan of dissolution would reduce the S. P. to the position of an inferior line, that there would be one strong line and one weak line, and that the U. P. would dominate the Southern Pacific.

HOUSE PASSES I. AND R. BILL

Staff Special.

OLYMPIA, Wash., Feb. 25.—With Rep. H. E. Foster casting the only dissenting vote, the house adopted the bill making effective the initiative and referendum amendments to the constitution. The measure is today in the hands of the senate.

This bill has had a stormy voyage, and did not come to light until Rep. Pierce, progressive, made the charge on the floor of the house that the elections committee was attempting to squelch it. The steamroller was run over Pierce, and the house organization later turned about and brought the bill out.

CHARGES FILED AGAINST KOHLER

By United Press Leased Wire.

CLEVELAND, O., Feb. 25.—Charges, alleging misconduct, have been filed against Chief of Police Fred Kohler, and Mayor Newton D. Baker has given until tonight for the chief to report on the charges. A conference between the mayor and Kohler was held Monday, but the nature of the charges was not made public.

Troupe is After Orient's Nickels

Filipinos, Japs, Malay head hunters, Hindus, and the blacks of Australia are to be initiated into the mysteries of the American problem play, and folks from Uncle Sam's domain now in the Far East are to get a peep at the latest "Broadway" productions, for the first time in ten years.

The American Dramatic company, under direction of Arthur A. Fox, sailed from Seattle for Japan today on the Oriental line: Sadu Maru. It is the first company from this side to tackle this field since the famous Frawley tour.

The repertoire of the company consists of the well-known plays, "The Divorcons," "The Idler," "Paid in Full," "Mrs. Temple's Telegram," "The Thief" and "The Wolf," each of which will be seen in the Orient for the first time.

The company will open in Yokahama, and after playing Japan will visit the coast cities of China, the Philippines, India, Australia, the Straits Settlements and Hawaii on the return trip.

DENIES RETRIAL AGAINST HIS KIN

Judge Howard took a final rap Monday at Henry W. Basset, plaintiff in a suit in which the defendant is represented by Howard's brother-in-law.

Basset's motion for a new trial of the suit which he filed against the Erickson Construction company for infringement of his patent sewer construction device, was denied by Howard.

Attorney McCord, Howard's brother-in-law, who represented the construction company, is also attorney for another firm charged with infringing the same patent.

GRASS' BILL KILLED

Staff Special.

OLYMPIA, Wash., Feb. 25.—As expected, Rep. Grass' grandstand bill, providing an eight-hour work day for men as well as women, was killed right off the bat. Rep. Grass was not even present in the house Monday when it came up. The committee unanimously recommended its indefinite postponement, and the house acted accordingly. After it was all done, Grass strolled into the house, and shed a few crocodile tears over it. Grass has been a consistent "organization" man throughout the session.

OLYMPIA, Wash., Feb. 25.—On the ground that the constitution fixes the salaries of members of the legislature at $5 per day, and no more, Rep. H. E. Foster, of King, has served notice on State Auditor Claussen not to pay Speaker Taylor the $10 a day voted him by the house. Claussen has held up the speaker's warrant until he obtains a legal opinion from the attorney general.

TAKES RAP AT COMMISSION

OLYMPIA, Feb. 25.—Commenting today upon the statement of a few days ago of George A. Lee, chairman of the public service commission, that house bill No. 109, providing for physical connection of telephone and telegraph companies, is a measure that does not cover the subject and should not be passed by the legislature, Hon. J. C. Lawrence of Spokane, former member of the state commission, said:

"The bill requiring telephone companies to make physical connections simply amends one section of the public service law which now gives the commission a very limited authority to require such connections. The telephone monopoly is bitterly opposed to the bill, as it gives a chance for competition.

SOLONS BOW TO PACKERS' WILL

OLYMPIA, Wash., Feb. 25.—The fish and fruit packers' trust in this state again demonstrated its political control Monday when the house refused to apply the eight-hour law for women to employes in those industries.

Two years ago, Rep. Ed Sims, now floor leader of the house, led the fight against including the fish and fruit packers in the eight-hour law, and forced that amendment through. When Rep. Foster's bill came up Monday to make the law apply to all women, it was indefinitely postponed without much ado.

The Foster bill also provided that employers must furnish employes with seats.

WRIGHT IS PROMOTED

Notice to the effect that he has been appointed general agent of the Pacific Coast Steamship Co. in Seattle, to succeed Arthur Heathorn, was received by M. J. Wright, for the past two years contracting freight agent of the company, Monday. The promotion takes effect March 1.

THE FAMOUS old United States frigate Nipsic, which for years has been used as a prison ship at Bremerton navy yard, is to become a salmon cannery boat. Ordered sold by the government, the highest bidder is Geo. J. Willey, cannery man of this city, who will pay $7,375 for the oak hull.
