PRESCOTT.

Miss Mabel Farrington returned to Mondovi last week.

Miss Pearl Lindblad is attending a summer school at Superior.

Mr. and Mrs. August Fields have begun housekeeping in the Glendinning residence.

The A. S. of D. will have their new elevator at this place completed and ready for business this fall.

Jas. Stirratt returned home from Bemidji last week, having spent a month with his son Frank at that place.

Miss Dora McKibbin has gone to her home at Melrose, after having taught a very successful year of school in the Stirratt district.

Theo. Borner attended the Epworth League convention held at Durand this week. He was chosen as delegate by the Prescott Epworth League.

"WILL THE ROPE HOLD?"

Our local contemporary has abandoned its study of astronomy, and is getting down to the material things of earth. Last week it gave a dissertation upon steam boats and snubbing ropes, that is a flawless gem of poetic fancy. Its nautical experience, gained upon the limpid waters of the far-famed Kinnickinnic and Putnam's Pond, abundantly qualifies it to treat the subject of steamboats and snubbing ropes, and incidentally snubbing posts, in a thoroughly comprehensive manner and with an ideal sentiment that is truly touching. What it does not know about water craft can be condensed into smaller compass than what it does not know about the Journal. We have no apology to offer for our advocacy of Republican principles. The Journal is in a position to care little whether or not it is on the band wagon, and it cares still less for a consistency so rigid as to be unable to recognize the changed conditions brought about by the evolutionary period of the last half century. Those who do not understand that a protective tariff was absolutely essential to our National prosperity forty or fifty years ago, as well as that tariff duties may now be materially reduced without crippling industrial interests, have studied economic conditions to little purpose. While the Journal cannot reasonably expect to meet with the approval of its local contemporary, our constantly increasing list of subscribers attest to its popularity among people who wish to learn what is doing in River Falls and vicinity, and who care nothing whatever about the relative strength of snubbing ropes.
