O. P. DeFord of Twin Lakes Col. treasurer of the Ontario Mining Company is the guest of Myron Marsh in the city today.

A. Loehr and family of Princeton avenue moved to onoke this morning where they will make their future home.

Baked Men. Workers in porcelain factories are literally baked, but by some miracle they remain sufficiently underdone to live. At least if they are not quite baked they endure a stronger heat than that which browns the Sunday sirloin. The furnaces wherein porcelain is finished are kept at the fiercest heat used in any industry. A chain of workmen, their hands and bodies swathed in fireproof garments, take the finished pieces from the fire one at a time and pass them to the cooling room. The man at the head of this chain—he who stands nearest the furnace—can only work in five minute shifts. In his intervals of rest he lies on a mattress drinking glass after glass of ice water from the hands of a small boy. At luncheon all about the chain of men steaks grill.—Philadelphia Bulletin.

Why Joyner Left Home. "Are you ready to receive the obligations?" asked the most upright supreme locus pocus of the Order of Root Owls.

"I am," said the candidate firmly. "Then take a sip of this prussic acid, place your right hand in this pot of boiling lead, rest your left hand upon this revolving buzzsaw, close your eyes and repeat after me!"

Early next morning shreds of Joyner's clothing were found upon the bushes and trees all along the road to Postville, thirty miles distant, and at Scrabbletown, sixty miles away. He was reported still headed west.

PATHE FILMS AT THE GRAND

So many of the Pathe picture films are shown at the Grand Theatre, and are enjoyed by so many theatregoers that a little information concerning the leading producers of the moving picture world will not be unwelcome to the thousands of amusement lovers who derive so much pleasure from the results of their artistic efforts.

The Pathe Freres (Pathe Brothers) occupy ten acres of ground, operate four enormous factories and have a staff of over 3,000 employees. The plants are located in Paris, Joinville-le-Pont, Montreuil-sous-Bois and Vincennes, where they have dozens of photographic studios, two complete theatres and thousands of dollars worth of costumes and scenic equipment. At the present time they take over 4,000,000 pictures a day, which means about 14,819 miles of negative film a year.

The leading motion photography men of the world are in their employ; their pictures, dramas, comedies, tragedies, etc., are written by such leading French Sandoz, Jules Lemaitre—all of the Academie Française; Jules Mary, Edmond Guiraud, etc., etc. They also make most realistic pictures based on the novels of Victorien Sardou, Alexandre Du-

mas, Victor Hugo, Alphonse Daudet, Honore de Balzac, and many other pictures in many instances on the very spot where the different scenes in the stories are laid.

Pathe Freres have offices in all the leading cities of the world and are represented by picture outfits in every country of the globe. They lead all producers in every variety of film production, and are the only ones who have solved the colored picture problem.

LATE NEWS OF GARY

Gary, Dec. 7.—(Special.) A. T. Robertson has been called to Philadelphia Pa., on account of the serious illness of his mother.

W. P. Hughes is spending a two weeks' vacation visiting his home at Huntington.

G. C. Meyers has resigned his position as electrician with the U. S. Coal and Coke Company, and has accepted a position with the Jeffrey Co., at Columbus, Ohio.

W. B. Hensel is on a week's business trip to Pittsburgh.

W. H. Smith manager of the United Supply Company's store at Elbert has severed his connection with the firm and has accepted a similar position with the Thacker Coal and Coke Company, at Thacker.

J. M. Harmon has returned from his vacation, which he spent visiting his parents at Staunton, Va.

E. G. Stockwell has accepted a position as general inspector for the Hibbs Concern of Cleveland, Ohio, with headquarters at Spokane, Wash. He left for Cleveland last Saturday.

C. H. Vaughn has opened a dancing class in the Gary Amusement Company's building, and the prospects seem bright for a number of good dancers in Gary.

A negro, whose name could not be learned, caused considerable excitement at the Supply Company's store yesterday, when he made the claim of being a "bad Alabama Nigger."

It seems that he had imbibed too much "moonshine," and his hands had hypnotized a pair of trousers from the Company store. He appeared angry when apprehended, and declared he would not be taken from the store alive, but evidently changed his mind when he saw Constable Pennington, who escorted him to the Squire's office, where he was given forty days "board" at the Welch jail.

W. W. Harding has been appointed Superintendent of No. 9 works, succeeding S. H. Graham, who has been transferred to No. 3 works.

There will be a bowling match at the alleys Saturday night, Dec. 11th between Gary and Welch, after which a supper will be served. A charge five games will be rolled, total number of pins to be counted.

How Often Does Pay Day Come?

NOT how much you earn but how much you save is the all important question of the wage-earner—"Little and often fills the purse." A most commendable practice of the bread-winner of today is to deposit a portion of his weekly or monthly wages in a savings account—it provides a competency for old age and relief for a rainy day. Bring your savings to this bank where conservative methods guarantee safety.
