

VOTE RECOUNT STARTS TODAY

SENATOR, GOVERNOR, AND THREE COUNTY OFFICES IN RECOUNT

Demand Of Vote For Recount On Presidential Electors Will Be Withdrawn

The recount of votes cast in Ohio county, November 7, for governor, United States senator, congressmen, sheriff, prosecuting attorney and assessor, and the vote cast for three district offices will be taken up by the Ohio county board of commissioners this morning.

Owing to the fact that the election of President Wilson was covered by Justice Charles Evans Hughes last week, it was announced that the request for a recount of the vote for presidential electors will be withdrawn when the commissioners meet this morning to take up the recounts.

The method of conducting the recount—whether for one office at a time or for all at once—has not been announced. Requests for recounts were filed before the close of the official canvass by counsel for Judge Ira E. Robinson, for governor; William E. Chilton, for United States senator; Thomas W. Fleming, for congress; George W. Oldham for sheriff; Carl O. Schmidt, for prosecuting attorney; Galia Mitchell, for coroner; Charles Miller, for justice of the peace in Union district; and John A. Moore, for school commissioner in Richland district.

The Republican candidates will be represented during the recount by a staff of counsel including Attorney Charles J. Schuck, Henry A. Nolte, George C. Benke, Carl Bachman and possibly others. Attorney J. B. Haudan, John Coniff and others will represent the Democrats who asked for recounts.

Program For The Week

Announcement was made Saturday that the recount will be in progress all day Monday, all day Tuesday and Tuesday evening and Wednesday forenoon. Wednesday afternoon the commissioners will spend in making the semi-monthly audit at the county in Tumary. Thursday, Thanksgiving day, will be observed as a holiday. The recount will be renewed on Friday morning and a half day session will be held Saturday. The guard over the ballots will remain on duty until the recount is completed, which may require a month or more.

SOUTH WHEELING GIRL IS SERIOUSLY BURNED

CLOTHING CAUGHT FIRE FROM AN OPEN FIRE PLACE. 'TIS THOUGHT

When Neighbors Arrived Flames Had Enveloped Her Entire Body—Taken To Hospital

Virginia Taylor, 13, of 71 Twenty-ninth street, was seriously burned about the body yesterday afternoon when her clothing caught fire from an open fire place. She was taken to the Ohio Valley General hospital and is under the care of Dr. E. M. Phillips.

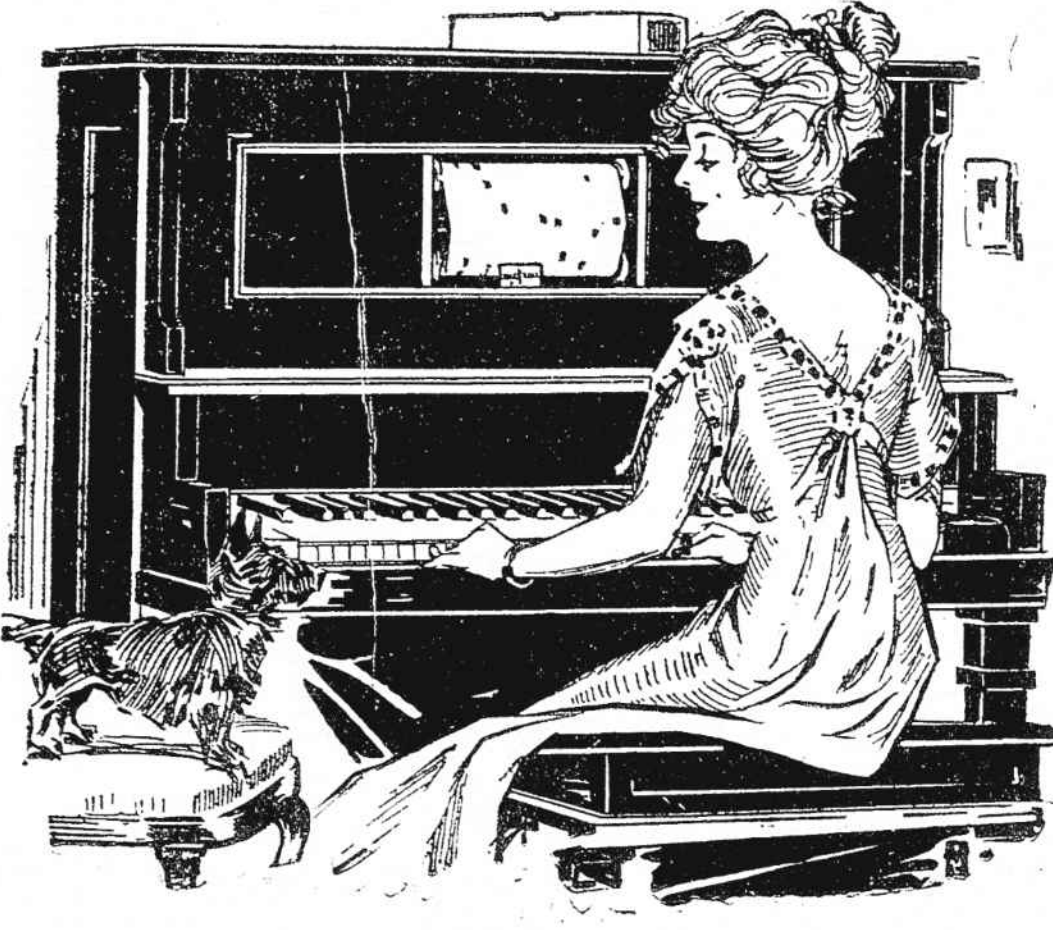

The accident occurred while the mother was absent from the home and it is thought that the girl while engaged in dusting a mantel got too close to the open fire place. Her screams attracted the attention of neighbors who hastened into the Taylor home, extinguishing the flames which had by that time enveloped her entire body. Dr. Phillips was called and advised her immediate removal to the hospital. Although the burns are serious they will not likely prove fatal according to hospital attendants.

CHIEF LEYLAND AND J. H. PURCELL GO OVER EMBANKMENT WITH AUTO

HORSE AND BUGGY INTO WHICH MACHINE PLUNGED ALSO WENT OVER CLIFF.
Tree Stops Auto, Probably Saving Lives of Occupants—Both Vehicles Badly Damaged.

Chief of Police Thomas Leyland and Joseph H. Purcell, of 413 South Penn street, Island, had narrow escapes from death yesterday when an auto in which they were riding crashed into a horse and buggy, sending both vehicles over a 35-foot embankment on the Colerain pike at the head of Martins Ferry hill. A man and little boy in

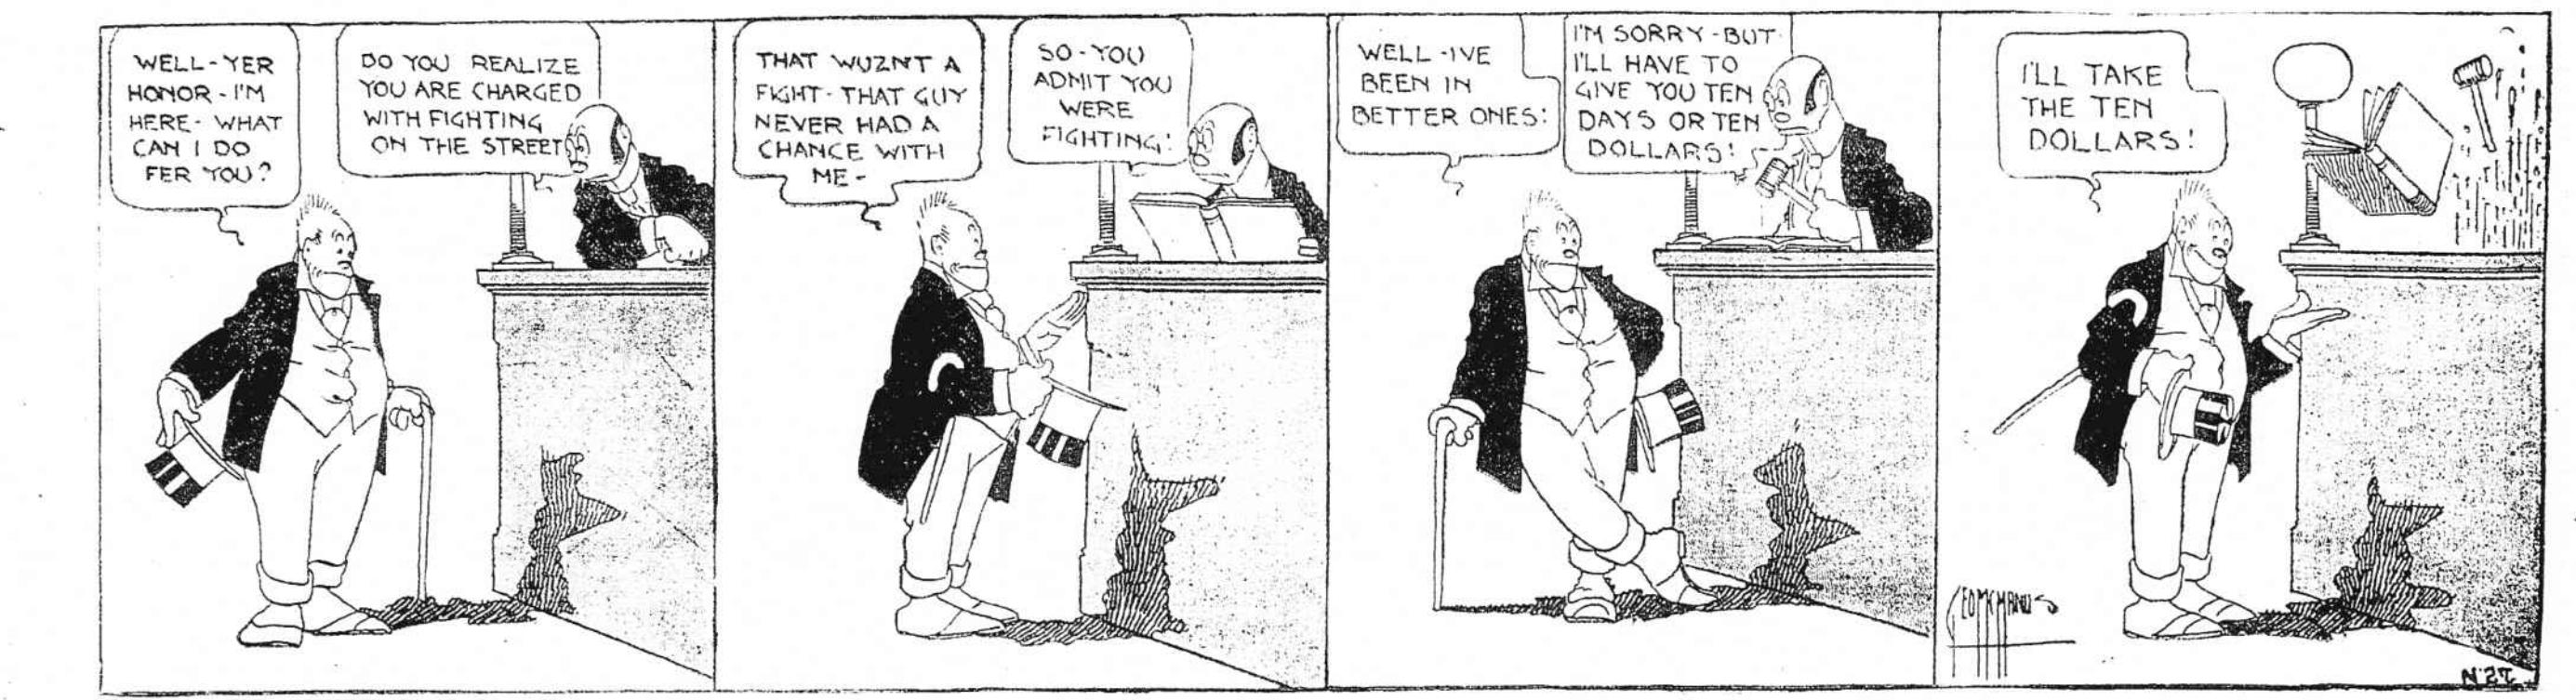

the buggy jumped before the plunge over the hillside.
The only thing that saved the lives of the two men in the machine was a big tree against which the auto halted. Mr. Purcell was thrown from the auto and sustained a fractured arm and other bruises about the body. The Chief was pinned beneath the machine for several minutes, but was not injured. He was removed from the wreck by Mr. Purcell and other persons who were soon on the scene. Both men were taken to the home of a farmer, who resided nearby, and later were brought to Wheeling in another automobile.
The occupants of the buggy refused to give their names or to talk of the accident. As soon as they recovered

themselves, they freed the horse from the upturned buggy and harness and soon had the buggy on the road again, and they drove on their way. The horse was not injured, though the buggy was badly damaged. About an hour after the accident the auto was pulled back on to the pike and taken to a garage in Martins Ferry for repairs. The fender of the machine was broken, the top torn and it was otherwise crippled.
Mr. Purcell's Story.
Mr. Purcell gave out the following story to an Intelligencer reporter last night: "I am an officer in the Odd Fellows' lodge and my official duties called me to the home of a member, Mr. Mills, who is very ill and resides at Pleasant Grove, O. Chief Leyland offered to take me there in his new

Maxwell car, which he has only driven a few times. I accepted his kindly offer. I had completed my mission and we were returning home. When we were just at the head of the Martins Ferry hill, near the home of Ed Dawson, we came upon a horse and buggy. It was going in the same direction as we. The Chief was driving the car, and he honked the horn several times. The driver of the horse was keeping to the right, and we had figured passing him on the left. We were so near the edge of the road that we ran into a private mail box, and just as we went to pass the buggy, the driver drove directly across the road in front of our machine.
"This move on the part of the driver was entirely unlooked for. The accel-

erant was inevitable. We jammed into his rig. The occupants jumped on to the pike, while the Chief and I went down with the auto. No blame whatever can be attached to the Chief. The driver of the horse is the one responsible."
