A dollar hoarded outside of the bank is just that much value lost to the world. - Wheeling News.

THE New York World tries to relieve the Democratic party of the responsibility by saying that it is not the Cleveland administration that has caused the money panic, but WANT OF CONFIDENCE.

THE ray of light that so many people thought they saw when President Cleveland called an early session of the new Congress has vanished.

It is idle folly for the Democratic party to say that it is the Sherman law that has caused such wide-spread disaster.

have given the country free coinage. That the true cause of the tremendous loss inflicted upon the American people is not the Sherman law, but the Democratic threat of FREE TRADE.

THE PEOPLE SUFFER.

THE demagogic assertion has recently been made that the tremendous loss inflicted upon the nation by the threat of Democratic free trade mattered little to the masses of the people since the sufferers from the shrinkage in the value of securities and the paralysis of credit, were mainly wealthy men.

It is supremely absurd to assert, as a large number of Democratic organs and politicians are continually asserting, that there is a capitalistic "class" in this country. This is not a country of "classes."

It is the multitude of small capitalists—the merchants who have risen to the conduct of a modest business by skill and honorable industry, the manufacturers whose establishments are on a moderate scale and who employ but a few hands each, and the people whose savings are invested in securities—that have been impoverished.

"The laziest fellers I ever see, not barrin' Thompson there even," said the man with the ginger bread. "was down in Central America. Tell you what I see once, I wandered into a little saloon that one of the greasers kept, and what should I see but a lot of fellows sittin' round a table with a lot of dice on it, an' all of 'em watchin' them dice as if the 'spected them to turn over of themselves. Which, sure enough, they did in a minute. Then I got onto their game.
