WOODS TO THE RESCUE

1015-1017-1019 Third Ave.,

Huntington, West Va.

Quiet Wedding.

Thursday evening, March 25 at the home of the bride's sister, Mrs. Emma Hite, of West Huntington, there occurred a quiet but pretty wedding, the contracting parties being Miss Sallie B. Ward of West Huntington and Mr. Claud Barbour of Adams Ave., Huntington. The ceremony was witnessed only by the near relatives and a few friends. Rev. Searcy of the Washington Ave. Baptist church officiated. After receiving congratulations from those present they went to the groom's home on Adams Ave., where they only staid one night when the high water drove them out. They returned to the bride's former home to spend their honeymoon where they remained till the water receded then they returned to his home. The bride has a host of friends and is loved by all who know her.

The groom Claud Barbour has lived for quite a number of years in West Huntington and is well known and stands high in the estimation of all his many friends. He has been an employee of T. H. Clay, manager of the Huntington branch of the A. Sander Packing Co., for several years.

We wish them a happy and prosperous journey down the matrimonial stream of life.

A READER.

Kenova Unsanitary.

The flood conditions left in Kenova are very bad. At its best the city has always possessed a number of stagnant pools of water which were improperly drained. At present the situation is appalling to one interested in the health of the community. The stench arising from certain quarters which have been overflowed by the high water is a menace to the general health

of the whole community. If some measures are not soon adopted to place the city in a more sanitary condition, we need expect nothing but a season of sickness and death. The disease breeding germs load the atmosphere and must be inhaled by every pedestrian walking down Chestnut street. The menace to the health of the school children is greater than to others on account of their course to the building, it being situated in the worst part of the inundated territory. We need barrels of lime and drainage, we need carts and wagons to gather up refuse and strong hands to burn refuse. Other cities have "got busy" and are fighting against the same proposition that exists in our city. What is the matter with Kenova, anyway?
