Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as 20 times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

Our community was saddened to learn of the death of Mrs. Jane Thompson. She had been born and always lived near this place until the last 10 years she had spent the winters in Morgantown and the summers at their country home here. Her old neighbors always looked forward with much pleasure to moving time in the spring but were sorry to see her leave for the winter. She had not been in good health the past summer and had said this would be her last move to the country. She was a woman of many beautiful traits of character, was loved by young and old alike. Her kindness was extended to animals as well as human beings until they followed her about showing their appreciation.

And this Nation-wide Demonstration Sale of 100 PATHE PHONOGRAPHS will conclusively prove this fact.

You simply MUST hear the Pathe Phonographs we are selling in this Sale. Even if you own a talking machine, or if you never expect to own one, you must hear the Pathe to learn of what a gigantic step forward the Pathe has taken in the development of tone in the art of sound production.

The function of a phonograph is to reproduce tones. Pathe Phonographs do far more than reproduce tones—they absolutely and faithfully duplicate the identical rendition of the artist in singing or playing as no other phonograph or talking machine in the entire world ever attempts to do. In orchestral and band selections the entire background is enjoyed—you recognize all the instruments—and so better appreciate the blending. There is no secret difference in the Pathe. The duplication instead of mere reproduction of the living voices of the artists is due to the Pathe Sapphire ball, which fits and fills the record grooves, so always giving the full tone value without wearing out either the sapphire ball or the record as it is being played.

Interesting comparisons of the various methods of reproduction of sound and of the various records in use—emphasize the superiority of the Pathe Sapphire Ball for duplicating the actual rendition of the artists. The Scientific American rightly says, "to have proper tone rendering, the stylus or needle must fit and fill the slot exactly; if too small, it will be thrown from side to side, giving false tones; if too big, it will give trouble by jamming and causing excessive wear of the record." The Pathe Sapphire Ball never wears out and always fits and fills the groove in the record.

We have heard the Pathe tested by the manufacturers in comparison with other machines. We have made innumerable tests ourselves. We have used practically every well known make of records on all machines upon which we have made our tests, and it is our candid opinion that the Pathe in conjunction with Pathe Records is superior in tone to any other phonograph we have heard, it matters not at what price it sells.

This is the reason why $25 worth of genuine Pathe Records are included, absolutely without charge, in this sale—to conclusively prove these facts.

You simply must hear one of these instruments before they are gone. You do not know what a source of real entertainment a talking machine can be until you have heard the Pathe.
