CITY PLANNERS TO MEET WITH DILLON MYER

The seven members of the community council planning commission will meet Tuesday with Dillon S. Myer, WRA national director, the Administration disclosed this week. It is assumed that the planning body will discuss self-government procedures with the director.

Myer, on the last leg of an extended field trip during which he will have visited most of the relocation centers, will arrive at Twin Falls Sunday evening and will drive out to the project Monday morning.

Administration officials revealed that Myer's itinerary calls for an airplane trip with Harry L. Stafford, project director, and Assistant Director Philip Schafer to view Minidoka's 68,000 acres from the air.

The national director will spend all day Monday and till noon Tuesday inspecting the project and conferring with division heads on the administration of Hunt.

SEPTEMBER PAY DELAYED HERE

September pay checks for Hunt workers will be delayed for a short while due to the recent transfer of the regional WRA disbursement office from San Francisco to Portland, it was revealed by Clarence Hurst, fiscal accountant.

HUNT NEEDS 125 TONS COAL DAILY

The daily need for 125 tons of coal to supply each apartment, dining hall and boiler room when cold weather hits Hunt, was pointed out Thursday by Howard Mann, senior procurement officer, when he revealed that government-contracted coal should arrive "within ten days."

3-DAY CONFERENCE TO OPEN ON FARM SELF-SUBSISTENCE

A three-day conference to outline Minidoka's 1943 self-subsistence farming program will begin next Wednesday with WRA agricultural officials from Washington participating in the discussion, the Administration announced yesterday.

Names of five more students released from Hunt for school relocation this week were revealed by Carl V. Sanders, counselor, Friday. The students are Roy Kono, University of Nebraska at Lincoln; Hise and Toruko Nakata, Rockford College, Rockford, Ill.; Taduo Sunohara, Brigham Young University, Provo, Utah; Yone Jayme Yamada, Duchesne, Omaha, Neb.

HUNT NEEDS 125 TONS COAL DAILY

present plans call for one of three Utah mines to ship three carloads daily to Hunt while another will ship four carloads per week. The third schedule has not been revealed yet.

"As soon as those shipments start rolling in," Mann said, "we will be able to supply everyone."

canal will be cleared and irrigated by laterals from the canal.

The conference will discuss ways and means of correlating crops so that all relocation projects will not be growing the same crops at the same time. While nothing definite has been determined yet, crops to be raised here will probably include beans, peas, potatoes and alfalfa.

The farming program will have as its aim subsistence for Japanese evacuees.

Meanwhile, E. Sobolev, farm superintendent, disclosed plans this week for a hog farm on the project utilizing the center's garbage. Establishment of a poultry and dairy farm are also contemplated.

FIRE FORCE SEEKS WOMEN FOR WARDENS

A call for 30 women fire wardens between the ages of 19 and 35 was made yesterday (Friday), by W. L. Yeager, fire protection officer. He will interview all applicants from 10 a.m. to 12 m. on Saturday and Sunday at Fire Station No. 2 near Blk. 28.

"These jobs are not replacements, but will be permanent," Yeager said. "One woman will be chosen assistant chief, with her duty to be matron of the crew. They will stay in the fire station, with hours 24 on and 48 off."
